

Egyption Military

By mason.taylor

In this slideshow I will explain the Egyptian Military ,weapons they used ,armor and transportation

Weapons

The Egyptians used all sorts of weapons, below are some examples

Axe used in 6,000 BC

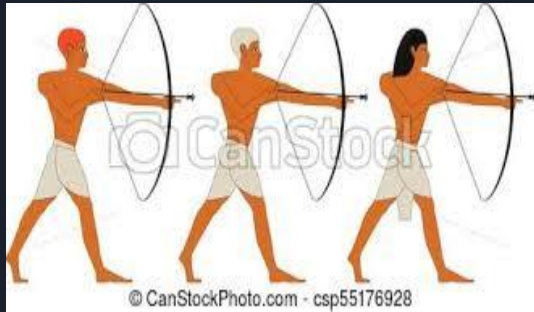

Mace used in 3600 BC

Bow and arrow used in 3,000BC

Armor

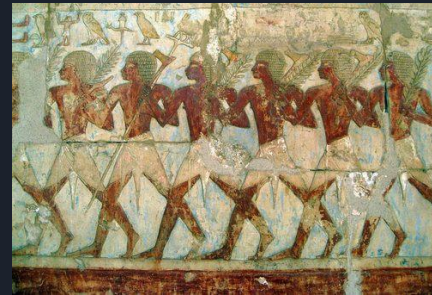

In Egypt the climate is so hot that most of the army did not wear armor. The Pharaohs did and they wore chain link armor, copper helmets and leather skirts. However the Bow Men wore normal clothing of cotton shirts and skirts and the cavalry wore leather chest plates. Here are some examples.

Bow men

pharos

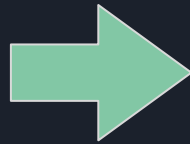

cavalry

Transportation into the war

In Egypt they used horses and chariots. They were used around 2181 BC.

The chariots were made of wood bent into the correct pieces required to make the chariots like

This one

Leaders

The head of the army was the Pharaoh. Under the Pharaohs there were the generals who were usually close relatives of the Pharaoh. The costume of Seth was worn by some of the Generals because Seth is the God of Chaos and also the God of War.
